NO. 32

MISCELLANEOUS.

DR. LIEBIG RESTORED.

Dispensary Con. Geary and Mason Sts., San Francisco, Cal.

THE COLLEGIALE INSTITUTE of special diseases and so-called incurable chronic diseases. Dr. Liebig's German Invigorator is especially guaranteed to cure nervous and physical debility, sexual weakness, lost manhood, Seminal weakness, loss of energy, Hanging and drooping in the Head, Meancholia, Hopeless despair, & restlessness, and all the results of youthful imprudence and excesses of mature years.

The Doctor, a real German physician from Europe, will agree thousand dollars for a case the Invigorator can't cure, and will give full treatment and advice.

The reason so many cannot get cured of Weakness and loss of manhood is owing to a complication called PROSTATORRH, which requires peculiar treatment.

Dr. Liebig's Invigorator No. 3 is the only positive cure for Prostatorrh. Price of either Invigorator, \$2 per bottle; six for \$10. Sent to any address on receipt of price, or C. O. D. Responsibility personal, and purchased under strict secrecy maintained. Patients cured at home. Dr. Liebig's Dispensary has an English Drug Store.

The following evacuation of the Bladder and Kidney sediment in urine are symptoms of Secondary Seminal Weakness and Prostatorrh. Complaints readily yield to Dr. Liebig's Invigorator.

Ordinary cases. Any recent case of special or private diseases cured for \$10. Remedies sufficient to cure will be promptly sent on full examination and advice on receipt of \$10. All packages are securely covered from observation.

Invigorator ample Free.

To prove the wonderful power of the Great Great Invigorator, \$2 bottle of either number will be sent free of charge. Persons ordering a free bottle will only have to pay expressage on delivery.

Most Powerful Electric Bells Free to Patients. Consultation, Examination and advice free and private. Call or write.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. SPINNEY, 11 Kearney Street, San Francisco, will prescribe a special diet for every case of Seminal weakness or private disease of any kind or character which he undertakes and feels to cure.

MIDDLE-AGED MEN

There are many in the age of sterility and sterility who are troubled with frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in the lower part of the body, and for this Dr. SPINNEY prescribes a copious sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milky fluid, and the urine will have a strong appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness, and who gradually decline in all such cases, and a hasty restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice

P. S. For private diseases of short standing a full course of medicines sufficient to cure will be sent to any address on receipt of Ten Dollars. Call or address DR. SPINNEY & CO., No. 11 Kearney Street, San Francisco, Jan 1st.

EDITORIAL NOTES.

One hundred and thirty thousand good Americans went abroad during the season which has just ended. The San Francisco *Chronicle* says: It is appalling to consider what they spent in the various capitals of Europe, where the American tourist is always made to pay three prices for every indifferent article which the native would not accept at such rates. When we come to look on the other side of the ledger we find that the major part of the British and other foreign visitors who have crossed the Atlantic during the year are men who have been invested to share in free excursions or who come with the expectation of making money on the stage or the lecture platform. It is strange, but the coin of the republic seems to take the opposite direction of the star of empire.

A statesman of Russia yesterday said that Vera Philippoff, who was recently arrested, was an actual Nihilist of the Executive Committee. She has written a voluminous confession. The Nihilists are miserably weakened in men and means, having lost many prominent members. The arrest of Vera Philippoff is the worst blow of all. The Nihilists are broken into widely scattered groups, each more or less independent of the rest. They are driven to murder and robbery in order to obtain funds.

A summary example is to be made of the leaders of the revolt at Erna Reka, Belgrade. The president of the civil tribunal at Nischi will preside over the commission of judges accompanying the military expedition which has been sent to suppress disorders.

A late dispatch says that in Pennsylvania the indications are for a much larger vote to be polled, than was anticipated. The Prohibition and Greenback vote is light.

Chief Justice Coleridge returned to England yesterday from the United States and expressed himself much satisfied with his trip.

The controversy growing out of the ill-treatment of Alfonso in Paris has been settled.

WESTERN DISPATCHES

WESTERN DISPATCHES TO THE GAZETTE.

A Horrible Crime.

ALBANY, Oregon, November 6. This afternoon the city was startled by the announcement that the wife of J. J. Findlayson had been murdered. E. R. Skepworth, Justice of the Peace and the coroner was summoned and impaneled a jury who elicited the following facts: Last Saturday Mr. Findlayson went to Brownsville and returning to-day about noon found his wife had been murdered during his absence. The deceased was killed with an axe and a pocket knife. The examination showed that she had been stabbed 25 times. Her skull had been mashed with the axe, the back of it sinking the entire length into the head. After hearing the evidence, the jury returned a verdict that the woman had been murdered, in their opinion, by her stepson, Charles Benson Findlayson, aged 15 years. The boy left Saturday evening and has not since been heard of. His shirt with blood on the sleeve was found in his room; also the bloody knife, found near the deceased and with which she was murdered, was identified as belonging to him.

A Severe Lecture.

SAN FRANCISCO, November 6. Mrs. Leavitt, a temperance lecturer, at a meeting of the International Lodge of Good Templars, last night, declared that most of the incumbents of offices of trust, were either heavy drinkers or enemies of prohibition. She dwelt severely on Governor Butler, styling him an "owl-eyed blackguard" and the enemy of temperance. "President Arthur," Mrs. Leavitt said, "is a very heavy drinker. Many nights before he was nominated Vice President, he would sleep the sleep of the drunkard in the low grog shop in New York; even now, when he complains of afternoon headaches, 'tis whisky that is the trouble." Mrs. Leavitt closed her remarks by advocating women's rights, and said that the obtaining of them would have an effect of producing total abstinence in the land.

ESTERN DISPATCHES.

ESTERN DISPATCHES TO THE GAZETTE.

The Massachusetts Election.

BOSTON, November 6. The weather throughout is favorable for a very heavy vote in this city. At 1 o'clock, ward No. 8 gave Butler 756; Robinson 274. In ward 10, at 11 o'clock, the Republican majority was 575. In Newton, the indications favor a Republican majority.

The first complete returns received are from Hall. Butler received 57; Robinson, 32. The Republicans gain tour over last year.

WALTHAM, November

The Republicans claimed a majority in Dedham. At 10 o'clock the Republicans had 250 and Butler 100. In Mamin, at noon, the Republicans had 150 to 40 for Butler.

LOWELL, November 6.

At 10 o'clock the votes stood, Butler 151; Robinson 257.

At Gloucester, at the same hour, Butler had 691 to Robinson 122.

WORCESTER, November 6.

The election is passing off quietly and a large vote is being polled. The Republicans are especially active and confident. In Taunton the indications point to the largest vote ever known, with large Republican gains.

LAWRENCE, November 6.

The vote is unusually large, with a majority indicated for Butler of about 1,500.

At Fall River a total vote of 6,000 will be polled; the State will be close.

The Republicans claim that they will be able to reduce Butler's majority to 800. Precinct 5, in Ward 11, of Boston, which gave Bishop 250 last year, showed at noon, 500 plurality for Robinson. Returns from other precincts in the various wards show considerable Republican gains over last year.

An unprecedented number of votes were cast early in the day. The ward, which has many colored voters, at 11 o'clock, showed a total of 602 for Robinson to 350 for Butler.

Another Whirlwind.

SPRINGFIELD, Mo., November 6. A cyclone traveling northeast, struck this city at 2:15 P.M. yesterday at the woolen mills, which it unroofed and demolished, then struck a two-story frame dwelling and blew it down, also a one-story frame in which a lady 50 years of age had her thigh broken. Passing east a number of houses were demolished. Miss Edmonson, a young lady, was buried under the side of a house, and was taken out with her neck broken. A street car was lifted three feet off the wheels. The cigar factory, residence and shop of P. A. Hecken were blown down completely. A man named Smith, driving a bakery wagon, had a leg broken, and another wounded. C. C. Clark, a brakeman, asleep in an upper room, had his nose broken, and upper jaw broken in two places. Chimneys were torn down and telegraph poles snapped like pipe stems. Passing east, houses were riddled with flying timbers, and at Bridgetown in all direction, a Swiss woman ran out of the house which fell on and killed her. Mrs. Aiken had a leg badly crushed. It was amputated to-night. She was pregnant, and will die. Six lives lost. Fifty-two children at Hazell Dell school house were pushed out in the storm by their teacher and a moment after the house was demolished to its foundation, and the iron seats were blown 200 yards. The storm was strictly wind from 50 to 250 yards wide.

How It Is Divided.

CHICAGO, November 6. General Passenger Agent Goodman of the Central Pacific has issued a supplementary circular, in which he says the proportions allowed reads in the circular of October 25th, on first-class tickets from St. Louis to Lathrop, Stockton, Sacramento, San Jose, and San Francisco, are incorrect. The correct amounts are as follows: Southern Pacific, \$27.20; Atchison, Topeka & Santa Fe, \$32.40; Atlantic & Pacific, \$26.80; St. Louis & San Francisco, \$22.

Consulting Kansas.

TOPEKA, November 6. A meeting of the managers of various railroads doing business in this State, with the Board of Commissioners, begins to-morrow, the idea being to arrive and agree upon a basis for freight rates. Among the railroad officials already here are I. J. Patten, J. S. Cameron, Brown Phelps, Thos. Muller, H. M. Hoxie, George Olds, M. L. A. Emerson, A. B. Toussaint, S. H. Clark and C. I. Leonard.

New York News

ALBANY, November 6. The election is quiet. A heavy vote is being polled. In Republican wards Carr is being freely cut and the indications are that Maynard will run ahead of his ticket in the city. The Democratic State Central Committee, at 1 o'clock, sent out the following to prominent Democrats in the county: "Maynard is reported as running ahead of his ticket in the county."

Election News From Minnesota.

ST. PAUL, Min., November 6. The election in this State to-day is for Governor, Lieut. Governor, Secre-

tary of State, Treasurer, Attorney General, and a Railroad Commissioner in each county. An unusually large vote is being polled. The main fight is between the candidates for Governor. The Republicans renominated the entire present State officers with Governor Hubbard at the head of the ticket. The Democrats nominated a Norwegian, A. Biermann, and as over four-fifths of the Republican voters of this State are of that nationality, the Democrats hope to make a close fight for the office. Governor Hubbard had a majority of 20,000 the last time. It is said that the Republicans claim 10,000 for him this time and the Democrats concede 5,000.

WALTHAM, November

Artesian Wells in Colorado.

In speaking of the flowing wells in Colorado, the *Rocky Mountain Mining Review* says: Some of the wells found in Denver throw out as much water per day as any that have ever yet been found in any part of the world. The discovery of these wells will add immensely to the sanitary and commercial value of Denver and the whole State. The seeking for wells will not be confined to Denver, for they will, no doubt, be found all along the eastern slope of the Rocky Mountains from Wyoming to New Mexico, perhaps extending for miles or more into the plains.

An Elegant Stock.

Nasby is just outdoing himself this year in his selection of Christmas goods. His stock of Christmas and birthday cards is simply elegant. His showcases are filled with watches and jewelry of all kinds and marked down to the lowest living rates. Mothers, fathers, sisters, brothers and lovers should examine his elegant selection before purchasing Christmas goods elsewhere. Since Nasby came to Reno he has been making many new friends every day and constantly filling his store with new goods until now he has the finest place this side of the Rockies.

Judgment Affirmed.

R. H. Lindsey received a telegram this morning from Washington saying that the judgment of the United States Circuit Court in the case of S. Brown vs. Newton Evans, had been affirmed by the United States Supreme Court.

Bullion Increase.

For the first three-quarters of this year, the net bullion yield of this State is reported to have exceeded the production for the same time in 1882 by \$100,000. The State tax on bullion will amount to about 13,000.

SALT FOR CATTLE.

A Continued Supply Needed to Secure Health.

Professor James E. Johnson, of Scotland, says: Upwards of half the saline matter of blood (fifty-seven per cent.) consists of common salt, and this is partly discharged every day through the skin and kidneys. The necessity of continued supplies of it to the healthy body becomes sufficiently obvious.

The bile also contains soda (one of the ingredients of salt) as a special and indispensable constituent, and so do all the cartilages of the body.

Stint the supply of salt, therefore, and neither will the bile be able to properly assist digestion, nor the cartilage to build up again as fast as it naturally wastes. It is better to place salt where stock can have free access to it than to give it occasionally in large quantities. They will help themselves to what they need if allowed to do so at pleasure; otherwise they become "salt hungry;" they may take more than is wholesome.

Houghly Handled.

Superintendent Drake of the Merced, Cal., Canal and Irrigation Works, was attacked by two foot-pads night before last, knocked down, stummed, stripped and robbed of \$90 and his team of horses.

A GOOD REPORT.

Pyramid Looking Healthy and the Prospects Good.

Superintendent Kinkead is in from Pyramid and says things are going on well. The upraise has gone about 120 feet, and has 80 more to run to strike the old shaft. They are not running straight up, but are on an incline of about 60 degrees, going in a southeasterly direction. The incline follows up the clay foot-wall, skirting the ore, and, at the same time, it is making distance along the ledge to the southeast. Wherever the shell is broken through good copper and silver ore worth \$200 a ton is found. No prospecting has been done, but the last of this week Mr. Kinkead will crosscut a little ways in search of both ore and water. He has to go very carefully, as the miners are a little afraid of a flood when the shaft is struck. The old works have about 300 feet of drifts all full of water, and there are 30 feet of water in the shaft. If a blast broke through into this body, it would flood everything, and drown all the men as well as tearing all the works to pieces. He has a drill hole ten feet ahead all the time, and when he gets nearer the shaft will keep 20 feet ahead so that there can be no surprises. Mr. Kinkead is as sanguine for Pyramid as he ever was. He has struck to it through discouraging times, and sees more hope than might make an effort to escape by scaling the yard fence, and gaging such patients as used vulgar language, etc. Second, That he has no business qualifications, and by reason of such lack of knowledge the funds devoted to the improvement of the asylum and the care of its inmates, have been partly squandered. Third, That he has been guilty of malfeasance in office, having converted the property of the State to his own use. Fourth, That he has, and now employs persons in various capacities in and about the asylum, whom he has declared to be, and who are unfit to be employees of that institution. Fifth, That the patients during his administration, have been barbarously, cruelly and inhumanely treated, and that such treatment was encouraged by the words and acts of the Superintendent; and it was for the reason set forth in this charge, that I, on the 20th day of last July, resigned the position held by me at the asylum; and it was only on the positive promise of Dr. Bishop (given in the presence of two of the leading citizens of Reno), that the wrongs complained of should be corrected, that I re-assumed my position. Sixth, That he lacks administrative ability, and by reason of a lack of discipline, the lives of the inmates of the asylum are in danger. And by reason of these acts and shortcomings of the Superintendent of the Nevada Insane Asylum, the noble charity to which these funds of the people have been devoted, utterly fail to accomplish the results desired. All of which is respectfully submitted.

THE DOAN LEDGE.

At a point 900 feet from the mouth it is 30 feet wide and full of rich, gold specimens. The ore is spotty, but the ledge is strong and looks healthy. The ledge he is upraising in is undoubtedly the King ledge, and it is a very good one. It is 30 feet wide, strongly mineralized, and undoubtedly has bonanzas in its bosom. In rising it makes towards the Jones & Kinkead ledge, and unites with the J. & K. before the bottom of the shaft reaches it. It branches off again and crops out 100 feet northeast of the J. & K. cropping. The best ledge is the J. & K., which is the middle one and the tunnel never has reached it at all. Still further west, 500 feet from the J. & K. ledge in the largest and boldest ledge in the district. Its cropping is 80 feet wide. Mr. Kinkead is very anxious to see the tunnel run on west another 800 feet to tap these two ledges. Here are 60 feet of vein matter that is open, and probably twice as much more ahead of the tunnel. The formation of the west country outside of them all is porphyry, and the east is syenite, showing an immense fissure. Probably they all come together below, and there may be a great mine down there.

TAFFY SAVED HIM

A Coal Heaver's Shroud Defense or himself.

One day a beautiful woman was driving in the Strand in a very low and elegant coupe. The street was blocked for a moment, and the noble lady put her head out to urge her coachman to drive on. Just at the instant a stalwart coal-heaver was going by on the sidewalk, and, finding himself face to face with her, found no other method of expressing his admiration than to seize her face between his two hands and kiss her. The coal-heaver was arrested and taken before a magistrate, where, as may be supposed, the lady demanded his condign punishment. "Well! what do I care for?" the punishments in the world," cried the culprit ardently. "I've kissed the handsomest woman in the three kingdoms!" Whereupon the anger of the fair lady was appeased as if by a spell, and turning to the magistrate she said, coaxingly: "Oh, please let this poor man go; he is insane, you see!"

Bondsmen Withdrawing.

This morning's *Enterprise* says:

Notices of withdrawal from the bond of Treasurer Nevin have been filed by W. H. Clarke, Frank Fredricks, J. S. Karson, M. C. McLellan and A. M. Cole. Messrs. Kaenen and Fredricks were released at the last meeting of the Board of County Commissioners, but the others cannot be released until the next meeting of the Board on November 24th. In the interval, the Treasurer will have to file supplemental bonds, and if this is not done by the 24th instant, his office will be declared vacant. Several of the withdrawing bondsmen say they would have remained on the bond, but for Treasurer Nevin's refusal to allow them to appoint a new deputy.

ASYLUM MATTERS.

Charges of a Serious Character Preferred.

Dr. H. Bergstein, late of the Nevada Insane Asylum, placed the following charges before the Board of Insane Commissioners, at Carson, to-day:

To the Honorable, the Board of Commissioners for the care of the Insane Insane of the State of Nevada—Gentlemen:

Believing it to be the duty of every citizen who may become cognizant of the mismanagement of any State institution, or of the abuse of any of the unfortunate wards of the State, to place the facts before the proper authorities, that the wrongs and abuses may be corrected, I desire to place the following charges against the Superintendent of the Nevada Insane Asylum before your honorable body for investigation: First, That he is utterly unfit for the position that he occupies, by reason of the fact that he appears utterly ignorant of the modern ideas for the care and treatment of insane persons; his idea of an asylum being rather that of a prison with wrought iron cells and barbed wire fencing to lacerate the flesh of such insane persons as might make an effort to escape by scaling the yard fence, and gagging such patients as used vulgar language, etc. Second, That he has no business qualifications, and by reason of such lack of knowledge the funds devoted to the improvement of the asylum and the care of its inmates, have been partly squandered. Third, That he has been guilty of malfeasance in office, having converted the property of the State to his own use. Fourth, That he has, and now employs persons in various capacities in and about the asylum, whom he has declared to be, and who are unfit to be employees of that institution. Sixth, That he lacks administrative ability, and by reason of a lack of discipline, the lives of the inmates of the asylum are in danger. And by reason of these acts and shortcomings of the Superintendent of the Nevada Insane Asylum, the noble charity to which these funds of the people have been devoted, utterly fail to accomplish the results desired. A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "26 Cedar St., New York, Oct. 26, 1862.
Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Sciatica; and the enclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a serpentine sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men in this country who enjoy as much pleasure as he has. I could easily name fifty persons who would testify to the facts in this case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and serpentine sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1862. Yours gratefully,

Hiram Phillips."

AYER'S SARSAPARILLA cures Sciatica and all Sciatic Complaints, Cramps, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

MESSRS. SEABURY & JOHNSON, Gentlemen:

—Like most of my profession, I am
cautious about pinning my faith to any
new medicine or curative agent. But
your BENSON'S CAPSICINE PLASTER

has broken through the bar-
riers and won its way to my good opinion.

My attention was first called to it some
eight months ago by a patient of mine.

Although I was well acquainted with the
superior excellence of your other plasters
and anti-septic dressing, made especially
for the protection of the skin, I was
not so familiar with this as to be
particularly new to me. I had heard, how-
ever, of its merits as a remedy, in case of
lame back, local rheumatism, neuralgia,
congestion of the brain, the brain
and nerves, and lungs, and the like afflictions, and
had since begun to experiment with it personally.

I FIND BENSON'S CAPSICINE PLASTER
to be a most valuable and effective
and rapid in its action.

Many tests of its qualities, made in my
own family and among my patients, have
convinced me that there is no other
similar article in the market, so popular,
nor so helpful in the diseases it has
named.

Many tests to do you may use
my name to do so.

It is estimated by the Commissioner of Pensions that \$40,000,000 will be required for the payment of pensions during the next fiscal year.

Four Congressmen-elect have already died since their election. They are Updegraff of Ohio, Republican, Herndon of Alabama, Democrat, Poole of North Carolina, and Cutts of Iowa, Republicans.

Idaho mining properties are receiving more attention, and some good discoveries are expected to be made in that Territory before long. Idaho needs to be opened with railroads before it will be able to bring out its mining capacities.

William F. White, of Santa Cruz, who has been in the California Board of Bank Commissioners for the past four years, has been reappointed for another four years by Governor Stoneman. The salary is \$3,000 per year and \$500 for traveling expenses.

The Drummers' Bill passed by the last Legislature is proving a profitable source of revenue to the State. Up to the present time the amount paid into the treasury is \$7,350. Between 60 and 70 licenses have been issued by the Controller.

An exchange says that a common brick, if very dry, will absorb a quart of water. The perfect brick of the human variety, however, although he is always very dry, wouldn't absorb a quart of water in a year's drinking. Herein is seen the superiority of mind over matter.
